> What the heck is the Hieronymous Machine?

Jim,

Pardon me butting in, but I am surprised you don't know what the Hieronymous Machine is.

It is a contraption that will do anything and everything for you. We built one many years ago (from drawings and specifications) but we were scared to try it out.

JS> What's the deal? I still haven't heard word one, and I'm
JS> beginning to wonder if maybe you misheard, or misread, or
JS> maybe I did...

Jim..the trial is in it's 10th week..the prosecution just finished and now the defense is about to get rolling. The prosecution's case doesn't look all that good.

CNN has only started reporting on it in just the last few days. The local newspapers have only sparse bits on it down here. The very next newspaper article I come across on this I will type up and put here.

>despite there being some hearsay material floating around.

I'm so glad the tape reached you safely and proved worth listening to as well! It's good to know there was some new material that you hadn't already come across. I was intrigued by his mention of the videotapes and photos in it which, if I understood him correctly, Price is offering to the public or will be offering for sale shortly. If he really does show all those photos he says he has of his implant, it should be quite something to see. Will you be contacting him directly via that address he gave at the end of the

tape? Perhaps this collection of his photos/video would be a good addition to UFORA's stocks.
I'm very interested in the article you've sent to International UFO Reporter (do you have their address, by the way? I'd like to contact them too for info on sample copies, subscription prices, etc.) and will look forward to hearing more when they've accepted it.   Are you a contract writer for IUFOR? Or are you at liberty to offer the same material elsewhere?
Thank you again for the packet of information. Great stuff!

Subject: UFO RESEARCH IN AUSTRALIA & NEW ZEALAND digital book info
Date: 23 Dec 91 06:42:00 GMT

Unfortunately at the time the book was released, I was in transit moving from Adelaide, in South Australia, to Cairns, in Far North Queensland. It took a few weeks to get settled here and so I apologize for not having had the following information sooner.

The book is available directly from:

DYNAMO HOUSE Pty Ltd
PO BOX 110
RICHMOND VIC 3121
AUSTRALIA

TEL: 61- 03-427- 0955
or 61- 03-428- 3636 Fax: 61- 03- 429- 8036

COST: Australian $ 30.00 plus postage

POSTAGE: Air mail to U.S.A. $2.50 (Australian)
Air mail to U.K. $3.00 (Australian)

The book can be purchased on VISA credit card, or cheque, (in Australian currency) and will be despatched by return mail.

Within Australia the above price applies but at local postal rates.

For any further enquiries please contact me direct or, if you prefer,
contact the publisher.

I contacted our local PBS station to see if "All Things Considered" had covered it - if anyone would have, they would have. They did one piece last Monday just to say that the prosecution had wrapped. The guy told me that as things come out during the defense, there should be more coverage, "otherwise they deserve to get their butt kicked."

Does make ya wonder...meantime I'm sure we know EVERYTHING we want to know about that landmark and historically important William Kennedy Smith case.

Any possibility this was a helicopter, Bill? Except for the brief power
outtages, there doesn't seem to be any reason to rule it out.

?

Well Sheldon, now you and everyone else have the chance to settle many facets of this issue if not the whole shebang--all at once.

Sen. Patrick Moynihan (sp?) is introducing a bill that would dismantle the CIA. This includes finding out how much money has been spent on the so-called 'Black Projects.' If people want this to happen, it could open files relating to all sorts of things from the Kennedy Assasination, to Drugs/Noriega, to Drugs/MIA-POWs, to October Surprise, to everything else, and finally to the alien cover-up. It would have to be done quickly as I'm sure much really good stuff would fall through the cracks or shredders. I can't imagine a better opportunity to find out what your government has been doing with your money. You ought to be able to know.

One of the ones pushing this so hard is Special Prosecutor, Laurence Walsh. I believe he headed the prosecution in the trials of Oliver North. He got convictions that were overturned higher up. It seems he may have found some things that you may want to know.

As evidenced by Sheldon's comments above, many people in this field of study (UFOs) are frustrated by the lack of growth of knowledge and information. Most additions of knowledge/information, when put under your scrutiny, fall short of whatever it is that people are looking for to help them decide what is truth. You now have the opportunity to find out what you want to know, but only if this is pursued by *ALL* with speed and diligence.

Why doesn't everyone take some time to write letters to all your elected officials, both at the State level and the National level? Write to Moynihan. Also write to those out of your voting area who are on the appropriate committees, such as Defense, National Security (I don't know the names of all the committees). If you want to push the alien question, include with the letter some piece of evidence that is convincing to you--not necessarily that aliens exist, but that something is going on and say that you want to know the truth.

Some people seemed pretty impressed by the new Roswell book. You can copy excerpts from that or anything else. What about the letter by Barry Goldwater at the beginning of 'Above Top Secret' about how he could not get in to see the hangars that have so many rumours swirling about them? I think that is an important point--that the elected representatives cannot get in to see what is inside and are now allowed to know how much funding has been allocated to what project. Why not demand of *YOUR* government *SERVANTS* that they open up *ALL* those hangars and show what is inside. The Cold War is supposed to be over, so there should be nothing to hide, right? If you really want to see what that smell is, start stirring the pot. If you receive no reply or an evasive reply, write back and demand an appropriate response. There is quite a number of people who read this newsletter, and the various other billboards and such. Together, an impact can be made.

We all could really get things moving. There *ARE* still some
good people left in Congress/Senate; they will listen if enough
people shout--it's an election year upcoming. I'm not saying
that they are going to open up the files right away, but by making
them address the issue, you make them sweat. It can't hurt, and I
believe it will help somehow. We also need to open all those files
that were closed as 'Top Secret' because of "National Security."
I really don't see how anything else could tell show much in such
a short period of time.

I think this is the opportunity many have been crying for.
What do you all think?

Greg (lush@ecn.purdue.edu)

   Well, lets see--- We got Dr. James McDonald, Morris K. Jessup to
name 2. Also according to Lars Hannson, there were 3 this year that
commited suicide. One was the person that uncovered the Inslaw

dealings.
   I'm not really good with names but I can get ahold with Lars (seems to have disappeared) I could get you the names. Not all these people that research or are involved with Ufology or other reseach commit ssuicid. Some seem to meet with unfortunate accidents. The 20 + witnesses that were involved in the JFK shooting is a prime example. I think some one did a study on that and the findings was that for this to happen it would be 1 in one trillion chance. Pretty stiff odds I would think that there was some hanky-panky going on.

Jim, I was just relaying what I heard about the person that Wendelle had from Area 51 was going to disclose some information and he was approched by the FBI. I didn't say it was fact.
When I say that I believe that the Meier case is real, it is my on opinion and not to be accepted as fact. I am not the world authority and the final say on these cases.
